

ProBetFunded**TERMS OF SERVICE AND PROGRAM RULES**

LEGAL DOCUMENT

Effective date	21 September 2026
Version	2.0
Contracting entity	Data Infrastructure Development Group LLC, a Wyoming limited liability company
Registration number	2026-002069408
Registered address	30 N Gould St #45117, Sheridan, Wyoming 82801, United States of America
Website / Platform	https://probetfunded.tradetechcheckout.com/
Support / Legal contact	support@probetfunded.com

1. Agreement, Contracting Parties and Scope

These Terms of Service and Program Rules (the “Terms”) form a legally binding agreement between Data Infrastructure Development Group LLC, doing business through the ProBetFunded platform (<https://probetfunded.tradetechcheckout.com/>) (“the Company”, “we”, “us” or “our”), and the individual who creates an Account, purchases or uses a Challenge, submits Picks, accesses a Simulated Funded Account or requests a Performance Reward (“Participant”, “User”, “you” or “your”).

By registering, purchasing, accessing, participating, submitting a Pick, requesting a Reward, or clicking an acceptance box, you confirm that you have read, understood and agreed to these Terms and all documents expressly incorporated by reference. If you do not agree, you must not use the Services.

The Company may provide the Services under the ProBetFunded brand. ProBetFunded is a trading name/platform name only and is not a separate contracting entity unless expressly stated otherwise.

These Terms incorporate the Privacy and Cookie Policy, KYC/AML/Sanctions and Eligibility Policy, Refund Policy, applicable Product Schedule, and any specific written reward or promotional terms presented at checkout or in the Account dashboard.

2. Definitions

“Account” means the personal user account opened in the Participant’s own legal name.

“Approved Jurisdiction” means a jurisdiction within the European Union (EU), European Economic Area (EEA), Switzerland and the United Kingdom that the Company has expressly activated for the relevant Service and not suspended or restricted.

“Challenge” means a paid, simulation-based evaluation program governed by these Terms and the applicable Product Schedule.

“Challenge Fee” means the one-time price paid for access to a Challenge and related digital services.

“Company” means Data Infrastructure Development Group LLC, registration number 2026-002069408, with registered address at 30 N Gould St #45117, Sheridan, Wyoming 82801, United States of America.

“Funded Stage / Simulated Funded Account” means a virtual post-evaluation environment. “Funded” does not mean that money is deposited into an account owned by the Participant.

“Participant / User” means the natural person who contracts with the Company and uses the Services for their own account.

“Pick” means a simulated selection, position or prediction relating to a sporting event recorded within the platform.

“Performance Reward / Reward” means a contractual cash payment that may become payable from the Company’s own funds after verification under these Terms; it is not a withdrawal of Virtual Balance or customer funds.

“Product Schedule” means the plan-specific commercial and rule parameters displayed before purchase, including fee, Virtual Balance and applicable limits.

“Restricted Jurisdiction” means any jurisdiction that is not an Approved Jurisdiction, together with any sanctioned, prohibited or blocked territory or person.

“Services” means the website, Account, Challenges, sports data, scoring, simulation, support, reward review and related digital functionality supplied by the Company.

“Virtual Balance” means a notional, non-transferable accounting value used only inside the simulation. It has no cash value and is not a deposit, stake, wallet, investment or customer asset.

3. Nature of the Services

The Services provide a simulated environment for evaluating sports analysis, forecasting, decision-making and risk-management performance. The Company does not accept a real-money wager from a Participant through the simulation, does not hold betting stakes for Participants and does not operate a sportsbook account, brokerage account, investment account, wallet or deposit account for Participants.

A Virtual Balance is purely notional. It cannot be withdrawn, transferred, sold, assigned, pledged, exchanged, redeemed or used outside the platform. A Challenge Fee purchases access to digital evaluation services and does not constitute a stake, wager, deposit, investment, contribution to a prize pool or purchase of a financial instrument.

A possible Performance Reward is a separate contractual payment from the Company's general funds and does not convert Virtual Balance or simulated profit into money owned by the Participant before approval.

4. Eligibility and Restricted Jurisdictions

The Services are offered only to persons who are ordinarily resident and physically located in an activated Approved Jurisdiction within the European Union (EU), European Economic Area (EEA), Switzerland and the United Kingdom. Every other country or territory is excluded unless the Company expressly adds it to its written approved-country schedule after legal and compliance review.

For avoidance of doubt, the Services are not offered to persons resident or physically located in the United States or any U.S. territory, the United Arab Emirates, Qatar, Saudi Arabia, Bahrain, Kuwait, Oman, Russia, Belarus, or any other country outside the approved European launch scope, unless that jurisdiction is later expressly approved in writing by the Company. Sanctioned persons and comprehensively sanctioned or occupied territories are always prohibited to the extent required by applicable law.

You must be at least 18 years old (or any higher local minimum age), have full legal capacity, act solely for yourself, use payment and payout methods in your own name, and be legally permitted to use the Services. The Company may refuse, suspend or close an Account where eligibility cannot be verified.

Use of VPNs, proxies, TOR, GPS spoofing, remote desktop, false addresses, nominees, third-party payment instruments or any other method intended to conceal or misrepresent identity or location is prohibited.

5. Account Registration and Security

Each Participant may maintain only one Account unless the Company gives prior written approval. Registration information must be complete, accurate, current and verifiable. The legal name, date of birth, address, country, payment source and payout beneficiary must be consistent and belong to the Participant.

You are responsible for safeguarding credentials and devices. Account sharing, sale, transfer, credential lending and participation on behalf of another person are prohibited. The Company may require multi-factor authentication, re-verification or security checks at any time.

6. Purchase, Contract Formation and Challenge Activation

The order page will display the applicable Challenge Fee, currency, Virtual Balance, plan, phases and material rules. Your order is an offer to purchase. The contract is formed when the Company accepts payment and confirms or activates the Challenge, whichever occurs first.

The Company may refuse or cancel an order before activation for pricing error, payment risk, restricted location, fraud indicators, sanctions concern, technical unavailability or legal/compliance reasons. Where the Company cancels before activation, amounts actually received will be returned where required by law or under the Refund Policy.

A Challenge begins when it is activated in the Account or, if the Product Schedule says so, when the first Pick is accepted. The Participant is responsible for reviewing the applicable rules before participating.

7. Challenge and Program Rules

The following core rules apply to the current two-step ProBetFunded Challenge unless a later Product Schedule expressly states otherwise. All percentages are applied using the platform calculation logic disclosed in the Product Schedule. "0" time limit means there is no fixed time limit, subject to any disclosed inactivity rule.

Rule	Step 1	Step 2	Funded
Profit Target	15%	30%	0%

Minimum Picks	15	30	30
Minimum Pick Amount	1%	1%	1%
Maximum Pick Amount	10%	10%	10%
Maximum Loss	20%	20%	20%
Maximum Daily Loss	10%	10%	10%
Time Limit	60 days	No fixed time limit (0)	No fixed time limit (0)

Step 1 is passed only after the 15% Profit Target and minimum 15 Picks have been completed without breaching any risk limit. Step 2 is passed only after the 30% Profit Target and minimum 30 Picks have been completed without breaching any risk limit. The Funded Stage has no Profit Target but requires at least 30 Picks for the applicable reward cycle or review period, unless the Product Schedule states otherwise.

The minimum Pick Amount is 1% and the maximum Pick Amount is 10%. A Pick below the minimum may be rejected or disregarded for minimum-activity purposes. A Pick above the maximum may be rejected, voided or treated as a rule breach where accepted due to technical error.

Maximum Loss is 20% and Maximum Daily Loss is 10%. Reaching or exceeding a loss threshold constitutes failure of the relevant Challenge or Funded review period, subject to correction of manifest platform or settlement error. The precise drawdown calculation method, daily reset time and treatment of unsettled exposure will follow the production platform logic and must be applied consistently.

Step 1 has a 60-day time limit. Step 2 and the Funded Stage have no fixed time limit unless a future Product Schedule expressly provides one. The Company may apply a reasonable inactivity rule if disclosed before purchase or before the relevant Funded period begins.

8. Pick Acceptance, Data and Settlement

A Pick is valid only when the platform records it as accepted with a timestamp. Pending, rejected, interrupted or unselected selections are not valid Picks. The Participant must verify the accepted selection before the relevant event begins.

Sports schedules, odds, scores, results and other data may be provided by third parties and can be delayed, corrected or withdrawn. The Company may correct a manifest pricing, data or settlement error and may void a Pick that clearly exploited stale, erroneous or impossible data.

Cancelled, postponed, abandoned, void, push, dead-heat or corrected events will be handled under the platform's published settlement logic or primary data-provider rule. The Company will apply the same documented rule consistently to materially similar cases.

9. Passing, Failure and Simulated Funded Stage

A phase is passed only when every applicable target and minimum activity condition is met and no unresolved breach remains after settlement and review. A dashboard status is provisional until the Company completes any reasonably required integrity, data or compliance review.

Passing Step 2 may make the Participant eligible for a Simulated Funded Account, subject to successful identity verification, eligibility review, acceptance of the then-current Funded terms and absence of fraud, payment dispute or integrity concerns.

The term "funded" refers only to the size of the Virtual Balance in the simulation. It does not mean that cash or betting capital is deposited into an account owned by the Participant.

10. Performance Rewards

Participants in the Funded Stage may qualify for a Performance Reward equal to 80% of verified positive simulated net performance for the applicable reward period, subject to these Terms, any plan-specific cap, KYC, rule compliance and the Company's verification process. A negative or zero verified result produces no Reward.

Rewards may be requested and processed no more frequently than once per calendar month unless the Company expressly offers a different schedule. The Company may define a monthly cut-off date, minimum payout amount, processing window and supported payout methods in the Account dashboard or Reward Schedule.

No screen value, simulated profit, projected payout or pending reward amount is owned by the Participant. A payment obligation arises only after the Company approves the Reward following verification. Approved Rewards are paid from the Company's own funds and are not withdrawals from a customer account or pooled fund.

The Company may review identity, residence, geolocation, payment ownership, Pick timing, linked Accounts, data-feed anomalies, prohibited strategies, sports-integrity indicators and compliance with these Terms. The Company may deny or recalculate a Reward where there is a documented rule breach, fraud, false KYC, collusion, account sharing, sanctions prohibition, deliberate location circumvention, technical exploitation, official-result correction or calculation error.

The Company may not be required to disclose confidential fraud-detection methods, security controls, third-party risk scores or information that law prohibits it from disclosing. Where practical, the Participant will receive the principal contractual reason for a material denial.

11. KYC, AML, Sanctions and Source-of-Funds Checks

The Company may require identity, age, residential address, geolocation, payment ownership, sanctions, PEP, source-of-funds, source-of-wealth, tax or sports-integrity information. Full verification may be required before the Funded Stage and must be completed before any Reward is paid.

The Company may suspend access or withhold processing while required information is missing, inconsistent, expired, altered, fraudulent or legally prohibited. Information may be shared with competent authorities, payment providers, banks, verification vendors and professional advisers where required or permitted by law and as described in the Privacy Policy.

12. Prohibited Conduct and Fair Play

- Fraud, impersonation, multiple Accounts, account sharing, account sale or use of another person's identity, payment method or payout account.
- Bots, scripts, unauthorized APIs, scraping, browser automation, reverse engineering, malware, denial-of-service activity or circumvention of security controls.
- Collusion, coordinated opposite-side activity, strategy duplication across linked Accounts, prohibited hedging, or manipulation intended to evade plan limits.
- Use of material non-public information, participation in events the Participant can influence, or other conduct that threatens sports integrity.
- Exploitation of latency, stale data, manifest pricing errors, settlement errors, geolocation weaknesses or undocumented technical endpoints.
- False chargebacks, fabricated complaints, altered KYC documents, sanctions evasion, money laundering or use of the Services for unlawful activity.

The Company may investigate using Account, device, network, payment, KYC, geolocation, behavioral and Pick-pattern information, subject to applicable law. Consequences may include warning, Pick voiding, recalculation, Challenge failure, suspension, termination, Reward denial, provider notification and legal action, depending on severity and evidence.

13. Suspension, Investigation and Termination

The Company may immediately suspend access, transactions, Rewards or account functionality where reasonably necessary to protect the platform, investigate suspected fraud or abuse, comply with law or sanctions, protect payment systems or sports integrity, or prevent material loss. A temporary hold is not a final finding.

The Company may terminate an Account or Challenge for material breach, confirmed fraud, deliberate circumvention, sanctions exposure, repeated abusive conduct, legal prohibition or serious integrity violation. On termination, access rights cease. Treatment of fees and pending Rewards is governed by these Terms, the Refund Policy and mandatory law.

14. Fees, Payments, Chargebacks and Taxes

You authorize the Company and its payment providers to charge the displayed price and taxes to the selected payment method. You must be authorized to use that payment method. Bank, currency conversion or processor charges imposed by third parties are your responsibility unless applicable law provides otherwise.

If a payment is reversed, charged back or disputed, the Company may suspend the related Account and Services while the matter is investigated. Knowingly false or abusive disputes may result in termination and recovery of reasonable costs where legally permitted. Nothing removes a non-waivable cardholder or consumer right to dispute an unauthorized or defective transaction.

Participants are responsible for their own tax reporting and payment obligations arising from purchases or Rewards. The Company may request tax forms, report payments or withhold amounts where required by law.

15. Refunds and Cancellation

All Challenge sales are final and non-refundable to the maximum extent permitted by applicable law. The detailed Refund Policy forms part of these Terms. No refund is due because a Participant fails a Challenge, changes their mind after activation, does not use the Service, disagrees with a valid rule outcome, experiences a user-side technical issue, or has an Account terminated for a confirmed material breach.

Nothing in these Terms excludes a refund or statutory remedy that cannot legally be excluded. Where EU, EEA or UK consumer law grants a withdrawal right, the Company will obtain any express request for immediate performance and any acknowledgement regarding loss or reduction of that right that is legally required at checkout.

16. Service Availability, Technical Issues and Force Majeure

The Services are provided on an “as is” and “as available” basis to the maximum extent permitted by law. The Company does not guarantee uninterrupted operation, error-free data or continuous availability. Maintenance, data-provider issues, cyber incidents, event cancellations, telecommunications failures, banking interruptions and force majeure may affect performance.

For a verified material Company-side outage affecting an active timed Challenge, the Company may provide an extension, restore state, replace access or provide another reasonable remedy. Cash refunds are not the default remedy unless required under the Refund Policy or mandatory law.

17. Intellectual Property and Acceptable Use

All software, interfaces, databases, scoring methods, text, graphics, trademarks, designs, reports and content are owned by or licensed to the Company. The Participant receives only a limited, personal, revocable, non-exclusive and non-transferable right to use the Services for lawful participation.

No Participant may copy, resell, sublicense, publish, frame, scrape, decompile, reverse engineer, create derivative works from, remove notices from, or commercially exploit the Services except to the extent a non-waivable law expressly permits such activity.

18. Third-Party Services

The Services may rely on payment processors, identity providers, geolocation tools, sports-data suppliers, hosting providers, analytics vendors and other third parties. Their own terms and privacy notices may apply to services they provide directly. The Company is not responsible for an independent third party's acts or omissions except to the extent liability cannot legally be excluded.

19. Disclaimers and No Guarantee

The Company does not guarantee that any Participant will pass a Challenge, remain eligible for the Funded Stage, receive a Reward, achieve a particular return, improve a skill, obtain employment, obtain a real betting account or earn income. Sports outcomes are uncertain and past or simulated performance does not guarantee future results.

Information supplied through the Services is general information and simulation material only. It is not financial, investment, betting, legal, tax, employment, medical or other professional advice. The Company does not recommend that Participants place real-money bets or make financial decisions based on simulation activity.

The legal classification of paid sports-related simulations and performance rewards may differ by jurisdiction. The Company does not represent that the Services are exempt from every gaming, contest, consumer, tax or other regulatory regime worldwide. Availability is therefore limited by the Eligibility Policy and the Company's legal/compliance review.

20. Limitation of Liability

To the maximum extent permitted by law, the Company and its affiliates, managers, officers, employees and service providers will not be liable for indirect, incidental, special, exemplary, punitive or consequential loss, or for loss of opportunity, reputation, anticipated profit, data or business arising from the Services.

To the maximum extent permitted by law, the Company's aggregate contractual liability arising out of a specific Challenge will not exceed the greater of (a) the Challenge Fee actually paid for that Challenge or (b) USD 250. This limitation does not apply to fraud, wilful misconduct, death or personal injury caused by negligence, or other liability that cannot legally be excluded or limited.

The Company is not liable for losses caused by the Participant's device, internet connection, credential sharing, unauthorized third-party access caused by the Participant, unsupported software, third-party provider outage, event cancellation, or prohibited conduct, except where applicable law requires otherwise.

21. Indemnity

To the extent permitted by law, the Participant will indemnify and hold harmless the Company and its affiliates, officers, managers, employees and providers against third-party claims, regulatory costs, losses and reasonable legal fees arising from the Participant's fraud, illegal conduct, infringement, false identity information, sanctions breach, account sharing, unauthorized automation or material breach of these Terms. This does not cover loss caused by the Company's own negligence, wilful misconduct or legal violation.

22. Communications, Records and Evidence

Contractual notices, receipts, policy updates, security messages and service communications may be delivered electronically. The Company may retain electronic acceptance records, versioned Terms, timestamps, IP/device information, order confirmations and platform logs and may rely on them as evidence to the extent permitted by law.

23. Complaints and Appeals

Complaints must be sent to support@probetfunded.com and should identify the Account, order, Challenge or Reward Request, explain the issue and include supporting evidence. The Company aims to acknowledge complaints within 3 business days and provide a substantive response within 15 business days, although complex KYC, data or integrity matters may require longer.

A Participant may request internal review of a material Challenge failure, Account termination or Reward denial within 14 days of notice. The Company may reject repetitive appeals that present no new evidence or argument. Nothing prevents a consumer from using a non-waivable court, authority, payment dispute or alternative-redress right.

24. Governing Law and Disputes

These Terms are governed by the laws of the State of Wyoming, United States, without regard to conflict-of-law principles. A consumer resident in the EEA, Switzerland or the United Kingdom retains any mandatory consumer protection and access to courts that cannot validly be displaced by a choice-of-law clause.

For Participants acting in the course of business, any dispute not resolved informally shall be finally resolved in English by one arbitrator under the International Dispute Resolution Procedures of the International Centre for Dispute Resolution, seated in Cheyenne, Wyoming, with remote hearings permitted. This clause does not apply to a consumer to the extent pre-dispute arbitration is invalid, unfair or non-binding under mandatory law.

To the extent legally permitted, business-user disputes must be brought individually and not as a class, collective or representative action. Non-waivable consumer collective-redress rights remain unaffected.

25. Changes to Services and Terms

The Company may update these Terms or future Program rules for legal, security, product or operational reasons. Material changes to an already-purchased active Challenge will not be applied retroactively to remove an accrued contractual right except where required by law, necessary to correct a manifest error, or necessary to address confirmed fraud or abuse.

The Company may discontinue or replace future products, restrict markets or jurisdictions, or stop accepting new Participants at any time. No Participant has a vested right to future availability of a product, country, price, promotion or Reward structure.

26. Assignment, Severability, No Waiver and Entire Agreement

The Participant may not assign or transfer the Account or rights under these Terms without written consent. The Company may assign this agreement to an affiliate, purchaser, successor or acquirer that assumes the relevant obligations, subject to mandatory law and required notice.

If a provision is invalid or unenforceable, it will be limited or severed to the minimum extent necessary and the remaining provisions will continue in effect. Failure to enforce a right is not a waiver.

These Terms, the incorporated Legal Documents and the applicable Product Schedule constitute the entire agreement concerning the Services. Mandatory law prevails over conflicting contract language. Product-specific rules prevail for their subject matter. Marketing or FAQ language does not amend the contract and must not be interpreted to create a guarantee contrary to these Terms.
